SUMMARY

Frontend Developer and UI/UX Designer based in the Philippines, specializing in building responsive and user-centered web applications. Currently studying at the University of Science and Technology of Southern Philippines (USTP), doing freelance commissions, building personal projects, and organizational work with SITE ProgVar.

SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, PHP, Python, Java

Frameworks & Libraries: React, Svelte, Astro, Laravel

Tools & Platforms: Git, GitHub, Docker, Vercel, Postman, Figma, VS Code

Databases: MySQL, Firebase, PostgreSQL

Specializations: Frontend Web Development, UI/UX Design, Open Source Contribution

EXPERIENCES

Frontend Developer (2025 – Present)

SITE ProgVar Cagayan de Oro, PH

- Contributed to the development and maintenance of the SITE organization's web presence and internal tools
- Collaborated with fellow student developers to build and iterate on frontend features using modern web technologies

Freelance UI/UX Designer (2025 – Present)

- Designed a commissioned UI/UX prototype for *Barangay Connect*, a barangay management system in Figma
- Developed the frontend UI for *eDiary*, a commissioned mobile diary app built with React Native and Expo

PROJECTS

Yorumi | *TypeScript, Node.js, Express, Redis, Firebase* (2026)

An anime/manga streaming web app with a clean modern UI and content discovery features

- Built a full-featured streaming interface with search, episode tracking, and responsive design
- Deployed on Vercel with optimized load times and mobile-first layout

SITE-USTP Website | *Astro, TypeScript, Tailwind, Firebase, Cloudinary, TinaCMS* (2025 – Present)

Present Official website for the Society of Information Technology Engineers (SITE) at USTP

- Developed and maintained the organization's public-facing website as part of the SITE dev team
- Implemented responsive layouts and organized content for events, announcements, and members info

davenarchives | *Astro, TypeScript, CSS* (2025)

A personal portfolio and project archive showcasing web projects, blogs, and experiments

- Designed and deployed a fully static site using Astro with paginated project listings, blog posts, and a clean responsive layout served via Vercel

FORMAL EDUCATION

University of Science and Technology of Southern Philippines (USTP) 2023

Bachelor of Science in Information Technology Cagayan de Oro, PH

- Active member of SITE ProgVar - Society of Information Technology Engineers, Programming Varsity
- Served as part of the Event Committee for *HACK-IT-ON 2026*, contributing to the preparation of the organization's hackathon
